

ScanNCut Project: Don't scrap it. Patch it!

If you've got toddlers, you know their clothes can barely survive a few minutes without a stain or a tear.

Can't clean Jenny's jammy jeans? No worries. Slap a patch on 'em. Blammo! You just took those tiny pants to the next level in cutting-edge kids' fashion.

MATERIALS:

- Brother ScanNCut
- Canvas
- Fabric
- Brother sewing machine

Step 1

Cut out a bunch of funky shapes from colourful fabrics.

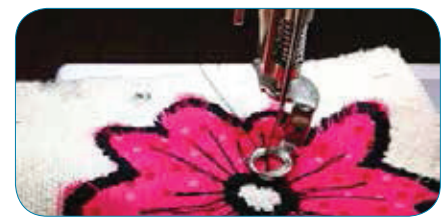

Tip! To cut like a master, use the high tack fabric support sheet on the standard mat to secure your fabric.

Get creative and cut some funky shapes

Step 2

Layer your shapes on top of the fabric (for extra stability).

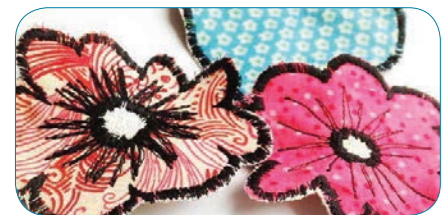

Detailing your patches-to-be

Step 3

Use your Brother sewing machine to stitch details into your shapes.

Step 4

You've now got a pile of pretty little patches that are ready to cover up your tykes' tears and stains.

Perfect patches, created by you!

Tip! Make a bunch. You'll need 'em!
(And you thought your kids were cute already!)
